

QWIKFOOT - Chiller Mounting System

Plan View of Installation

- Proven, non-penetrative, free-standing mounting solution.
- Off-the-shelf, lightweight construction ideal for rooftop & flat floor installation.
- All stainless steel durable construction.
- Ideal solution for mounting ATC weather resistant chiller housing.
- Heavy duty feet manufactured from recycled rubber.
- Drain slots allow water to pass under the foot.
- Raises chiller 18cm from fixing surface for ease of drainage, hose connection and provides flood/splash protection.
- Fully fitted by ATC Service Engineers.
